DETAILED ACTION

Allowable Subject Matter

Reasons of Allowance:

1. Claims 1 - 30 are allowed.

The following is an examiner's statement of reasons of allowance:

Both the instant invention and the closest prior art Watson, U.S. Patent No. 5,629,780 are directed to method and apparatus for reducing or compensating quantization artifacts or errors in image. The instant invention further recites the limitation "an equalizing unit to equalize the cut composite signal according to a predetermined brightness equalizing pattern and to output a first brightness equalizing value with respect to a brightness level of a pixel of the current image signal and a second brightness equalizing value with respect to a next level of the brightness level of the pixel of the current image signal" in claims 1, 8, 13 and 22 which is not taught by prior art of record. Therefore claims 1, 8, 13 and 22 are allowed. All other claims depending on claims 1, 8, 13 and 22 are allowable at least by dependency on claims 1, 8, 13 and 22.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
